

In 2011 Bosch will be celebrating a double anniversary: 125 years since the company's establishment and 150 years since the birth of our founder.

We embarked on a Bosch sponsored monopoly charity walk on Saturday 11th June, to various locations where our Bosch kit is used, from the Olympic Stadium in the East to St James park in West London. The total distance that we

will cover during the walk is approximately 20 miles, which at a medium walking pace, took about 8 hours.

Every year Children in Need helps thousands of disadvantaged children across the United Kingdom, so please give generously to help us reach our goal by Friday the 18th of November!
