

Secure Yacht showcases Bosch MIC cameras at METS

November 2009

STAND 527, SUPERYACHT PAVILLION. At this year's METS show Secure Yacht Ltd, the marine security specialist, will be showcasing the MIC Marine CL-400 camera series with stainless steel and thermal variants, from Bosch Security Systems.

The Bosch MIC series of PTZ cameras are renowned in the security industry for their rugged design and reliability in extreme conditions, and with the integration expertise of Secure Yacht, they are the ideal security solution for marine applications.

Dean La-Vey, Managing Director of Secure Yacht Ltd said: "We launched the MIC Marine CL-400 series last year to the marine market at the METS show and it was very well received so we were keen to bring it back again. It is an unobtrusive camera with an aesthetic design, protected by a robust housing enabling it to withstand the extreme conditions present in the marine environment."

The MIC Marine CL-400 stainless steel camera uses grade 316 ultra corrosion resistant stainless steel casing and provides all the benefits of the MIC series cameras such as brushless motor technology for whisper quiet operation,

The Thermal range (MIC Marine CL-412TI) is based around a dual spectra unit offering both optical and thermal imaging camera modules in one compact package. At sea the thermal imager offers the ultimate in perimeter protection that can instantly be switched to the optical module to retrieve clear identification images at the press of a single button on the control keyboard. While in thermal mode the camera can also see through fog, spray and pitch-black darkness over very long distances.

A choice of 18x and 36x true day night camera modules are available, and with a compact design, flexible mounting and enhanced viewing options coupled with Secure Yacht Ltd's vast experience in marine security and integration it is the perfect camera for a security solution onboard a yacht.

Along with technologically advanced security systems, Secure Yacht offers a comprehensive consultancy service and custom design service to provide absolute security for all maritime applications.

The Bosch Group is a leading global supplier of technology and services. In the areas of automotive and industrial technology, consumer goods, and building technology, some 280,000 associates generated sales of 45.1 billion euros in fiscal 2008. The Bosch Group comprises Robert Bosch GmbH and its more than 300 subsidiaries and regional companies in over 60 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. Each year, Bosch spends more than 3.5 billion euros, or eight percent of its sales revenue, for research and development, and applies for over 3,000 patents worldwide. With all its products and services, Bosch enhances the quality of life by providing solutions which are both innovative and beneficial.

The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as “Workshop for Precision Mechanics and Electrical Engineering.” The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant up-front investments in the safeguarding of its future. Ninety-two percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a charitable foundation. The majority of voting rights are held by Robert Bosch Industrietreuhand KG, an industrial trust. The entrepreneurial ownership functions are carried out by the trust. The remaining shares are held by the Bosch family and by Robert Bosch GmbH.
