

PRESS RELEASE

BOSCH SECURITY SYSTEMS RE-LAUNCHES WEBSITE

The UK's leading security solutions manufacturer Bosch Security Systems has launched a new user-friendly website offering customers information on its comprehensive range of proven technology and solutions as well as a dedicated area for customer care.

Members of Bosch's BSSD programmes can access a secure area on the site, where they can obtain specific information relevant to their membership. The site is an ideal resource and communication channel for installers and distributors, as well as being a valuable reference source for specifiers, architects and end-users.

Jeremy Hockham, Managing Director of Bosch Security Systems: "We have revised the site to provide an interface that is simple and easy to navigate, and one which is much more user-friendly for our UK customers."

Bosch Security Systems' new website can be found at www.boschsecurity.co.uk
